

Delegates of the Fourth General Assembly,

The Fourth General Assembly is a part of the 6 general assemblies. In GA4, we discuss special political, and decolonization matters across different continents. The General Assembly, which GA4 falls under, was established in 1945, and representation extends to all 193 member states. GA4 was founded to serve political and peacekeeping operations around the world, discuss atomic radiation, and ensure the peaceful use of outer space, as well as resolve matters relating to non-self-governing territories. This shows the significance of the Fourth General Assembly, and its relevance in today's world.

This year's AMMUN theme is "Deliberate to Liberate", which is heavily related to GA4, where our goal is to deliberate in order to achieve peace, safety, equality, and liberate silenced voices. This theme also emphasizes the importance of working together and collaborating to execute meaningful solutions. It is important for delegates to keep the theme in mind throughout the conference, maintaining an open-minded attitude, while confidently deliberating and negotiating their stance.

AMMUN is the first and only THIMUN affiliated conference in Jordan, therefore we hold our delegates to a high standard, both in terms of debate and in terms of conduct throughout the conference. Delegates are expected to participate in active debate, think critically, and approach topics with a focused mind to achieve successful resolutions. Delegates are expected to research the topics of the forum, found on the AMMUN website, to be familiar with the topic and comfortably come up with solutions and actively engage through creative questions, effective amendments, and pivotal resolutions. The chairing panel is excited to work with delegates throughout the conference, where we will hopefully experience heated debate sessions, and push you to reach your full potential.

Hamzah Abu-Irshaid,

President of the Fourth General Assembly.
