Favorite Quote: John F. Kennedy: "Let us never negotiate out of fear, but let us never fear to negotiate."

I started my MUN journey through AMMUN in 2023 as a delegate of the Disarmament Commission. Since then, I have been able to participate in conferences as both a delegate and chair, but in all cases I was always in the Disarmament Commission. Having gained experience from various angles, I developed a special interest in the topics related to disarmament and diplomacy.

Since then, my passion for diplomatic debate has only continue flourish. From grouping up with other delegates to draft resolutions, to heated debates in the forum defending my resolution, to negotiating compromises. Slowly, my appreciation for MUN has only grown, becoming part of something I genuinely look forward to.

It is an honour for me to return to the committee in which my MUN career began to serve as a President of the Disarmament Commission at AMMUN XXV. I am looking forward to hearing different approaches and solutions regarding the topics of this year, and making this year's conference unforgettable.

The issues before us will not have straightforward answers, and that is exactly what makes them worth debating.

I look forward to seeing how you approach them at AMMUN XXV,

Sebastian Alexander Nemeh
President of the Disarmament Commission
